#### Short Biography

Dr. Hsintai Lin is Professor Emeritus in department of Special Education at the National Taiwan Normal University. His areas of specialization include career development, psychological measurement, as well as guidance and counseling. He served in the department of guidance and counseling at the National Changhua University of Education from 1973 to 1990, participating and creating various guidance programs for school students. After 1990, he joined the faculty in the NTNU with his major interest in career development on persons with disabilities. His recently revised book “Career Guidance and Transition Services for Persons with Disability” (2019) served as his contribution to the rehabilitation counseling professional field in Taiwan.
